A supplementary figure showing the number and severity of initial hypersensitivity reactions and breakthrough reactions (BTRs) during one-bag and multibag desensitization protocols for rituximab. The figure includes pie charts and bar graphs illustrating the distribution of reaction grades and breakthrough reaction grades. 

**Supplementary Fig. 1.** (A) Number and severity of initial hypersensitivity reaction and BTRs of one-bag protocol. (B) Number and severity of initial hypersensitivity reaction and BTRs of multibag protocol. BTR, breakthrough reaction. Grades of breakthrough reactions were evaluated by Common Terminology Criteria for Adverse Events.
